# Postgraduate Internship Programme

Want to  
put your  
postgraduate  
**studies into  
practice?**

Want **work experience recognised** in your PG qualification through practice credits?

## Business School Postgraduate Internship Programme

This optional unit allows students to gain 100+ hours of work experience in a business environment, putting your studies into practical application, at the same time as gaining practice credits, which will be recorded on your qualification transcript.

Internships can be full-time at the end of your studies, or part-time over a longer period, fitting around your course commitments.

## What support will I receive?

The Business School Placement Team support students by advertising vacancies, assisting with CVs and applications and seeking opportunities with local and national employers. In return, you enhance your employability and increase your competitiveness in the job market following graduation.

“As a Foundation we really understand and appreciate the added value that employing an Intern can bring to our business. Not only do we benefit from a fresh injection of skills and ideas but we also feel like we are making a difference by providing the much needed work experience opportunities that are vital to students when seeking future employment. Ken has proved himself as a real asset and has played an integral role in supporting our research needs”

**Sandy Mitchell,**  
**Head of Community Development,**  
**Lancashire County Cricket**  
**Club Foundation**

“I think I laid the foundations of my future with this work experience. I learned things I hadn't learned in class, and I saw things in practice I had only known in theory before.”

**Agnes Szabadi,**  
**MSc International PR**  
**Admiral PR**  
**Manchester**

“Every student should grasp as much experience as possible. This has given me the privilege to understand how business operates in my field”

**Sarah Iqbal**  
**MSc Project**  
**Management**  
**ATG Access**
